## SUMMARY

---

Motivated Computer Science Engineering student seeking opportunities to apply technical knowledge and analytical thinking in a professional environment. Interested in programming, logical reasoning, and software technologies, with a commitment to continuous improvement and innovation.

## EDUCATION

---

### CHERAN MATRIC HR SEC SCHOOL

10th % : 100%

12th% : 91%

### V.S.B Engineering College,Karur

*Bachelor of Engineering in Computer Science and Engineering 2023-2027*

- Maintained a 8.71 CGPA
- Studied programming and Web Concepts
- Worked on academic projects in Java and web technologies

## SKILLS

---

Proficient in Java programming with hands-on experience in developing academic and mini projects.

Knowledgeable in web development and blockchain fundamentals with strong debugging and logical thinking abilities.

- Java Programming
- Web Development
- Blockchain Basics
- Problem Solving
- Communication Skills

## CERTIFICATIONS & BATCHES

---

**INFOSIS SPRINGBOARD**-Programming /Technology Certification

**AWS ACADEMY**-Cloud foundations

**CISCO NETWORKING ACADEMY**-Networking Basics

**SALESFORCE TRAILHEAD**-CRM Fundamentals

## EXPERIENCE

---

## INTERSHIPS

### WEB DEVELOPMENT INTERN

- Project :Event Management System
- Worked on Event Management System project in the Web Development domain.
- Developed and modified web pages using HTML,CSS and JavaScript.

### JAVA DEVELOPMENT INTERN

- Codesoft (Online Internship)
- Practiced Java Programming and problem-solving concepts.

## PROJECTS

---

### 1. BLOCK CHAIN BASED DOCUMENT VERIFICATION SYSTEM

<https://github.com/Ganikarika/Docuement-verification-system>

The system uses blockchain technology to store document hashes, making records tamper-proof and transparent.

Users can upload and verify certificates instantly without depending on manual verification processes.

This project helped me gain knowledge in blockchain, cryptography, smart contracts, and secure web application development.

|                         |          |          |                        |          |         |
|-------------------------|----------|----------|------------------------|----------|---------|
| HTML,CSS/<br>JavaScript | React.js | MetaMask | Ethereum<br>Blockchain | Solidity | Web3.js |
|-------------------------|----------|----------|------------------------|----------|---------|

### 2.EVENT MANAGEMENT SYSTEM

The system allows students to register for events, view schedules, and access symposium details online.

Implemented a user-friendly interface with secure database management for smooth data handling.

Reduced manual work and improved event organization through digital automation.
